

APPLY AGILE THINKING TO NON-IT PROJECTS

Date: 23 March 2023 | Time: 9am – 5pm

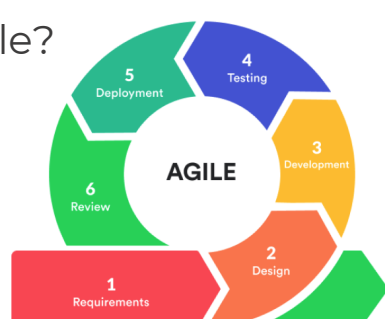

The Agile framework was designed to be applicable to all types of projects; the application of this digital age thinking and practices to processes and other types of non-IT enterprise projects was foreseen from the very beginning of the business agility movement.

Through interactive instructions and team-based exercises, this one-day workshop introduces Agile, Scrum and Kanban principles so that participants from Care Sector can understand how to use them with their teams and organizations to build more products/services in a timely manner.

TOPICS COVERED

- Overview of various project lifecycle, and why Agile?
- Fundamentals of Agile – Scrum & Kanban
- 4 Scrum Roles
- 5 Scrum Events
- 3 Scrum Artefacts
- Large-Scale Team Exercise

TARGET PARTICIPANTS

This course is suitable for all as it is intended to provide a quick introduction to Agile principles and knowledge. The following individuals may find this course particularly relevant:

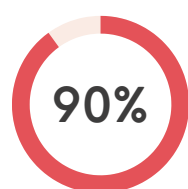

- Project Leaders, core team members in Care Sector who are interested in working in Agile/Scrum Lifecycle
- Management team members who would like to explore practical application of Agile practices to “becoming” a Lean and Agile organisation
- Experienced project leads or core team members who would like to learn what is difference between the classic Waterfall project methodology versus the Agile approach

COURSE FEE:

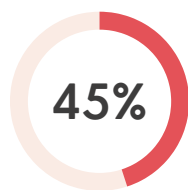

\$510 (before GST and subsidy)

VENUE:

Kwong Wai Shiu Hospital
705 Serangoon Road
Singapore 328127

Singapore Citizens & Permanent Residents are eligible for SSG's subsidy of up to 90%.
(Guaranteed 70% + Additional 20%, depending on eligibility)

Prevailing course fee subsidy from AIC at 45% for Work Permit Holders working in eligible CCOs.
